

Center Construction Cost Estimated At \$477,500

The estimated cost of construction and relocation of several streets will cost the Town of Arlington an estimated \$477,500 according to a report recently passed on to the Arlington Development Commission by the Town Engineer.

Total estimated costs of the five projects involved are as follows: Mystic street Relocation \$122,000 Pleasant St. Underpass \$250,000 Winslow street, Mystic street to Water street \$51,500 Winslow street extension, Water to Mill street \$29,800 Water street extension, Russell to Summer St. \$24,200

Meanwhile, at Monday night's meeting of the Board of Selectmen, Selectman George Harris stated that he believed that the Town could obtain Federal Aid in connection with the relocation of Mystic street in conjunction with the Urban Renewal Program. Harris asked that a folder on Urban Renewal be given to the Town Counsel through the Town Manager. The Counsel would then be asked to determine whether or not the Town would be eligible for Federal Aid under the Renewal Program: if the town is eligible Mr. Harris asked that the Town Counsel prepare an article for Town Meeting seeking the Town's share of such funds as would be needed.

Arlington, Belmont Boys Break Out Of Thin Ice

An Arlington teenager and his buddy from Belmont managed to scramble their way to shore some forty feet away after they had fallen through thin ice at Little Sky Pond in Belmont last weekend.

The boys were skating along with over 100 other youthful skaters trying out ice for the first time this winter on the stretch of ice behind the almost completed Route 2 MDC rink when the mishap occurred.

Walter Shaw To Seek Office Of Assessor

Walter D. Shaw, 78 Thorndike street, Arlington, has taken out papers seeking the office of Assessor in the Town of Arlington at the election in March.

Mr. Shaw was graduated from Boston English high school and attended Boston University. He is a veteran and self-employed.

He is married and the father of twins, five and one half years old. Mr. Shaw has been a resident of Thorndike street since 1937.

James Butler, 13, 50 Sandrick street, Belmont, and Edward DeYoung, 24 Cornell street, Arlington, according to reports, ventured out just beyond the other youngsters when the ice cracked. They somehow made their way to shore some forty feet away breaking the ice with their hockey sticks as they went.

Officers Richard Long and William Shultz of the Belmont police department carried the boys to the shore.

Urge Co-operation

Workers have started making their rounds in connection with the 1958 True Listing of all persons in the community twenty years of age and over.

All residents of the community are urged to be ready when the workers appear so as to make their task that much easier.

Activity Slow In Returning Of Candidate Forms

A goodly number of Arlington's Town Meeting members whose three year terms of office are up this year have not been heard from as of early this week. Activity in the form of the return of a letter sent out by the Town Clerk's office December 20 to all Town Meeting members whose terms are up this year has not been great according to Town Clerk James J. Golden.

Golden stated that printed forms were sent to all those who would come up for re-election this year notifying them that all they had to do was signify their intention of running for office again and return the form to the Clerk's office before January 20. It would not then be necessary for these incumbents to take out nomination papers. However, if they do not return the form prior to January 20, they must then take out papers and file before the closing deadline of January 27.

Golden told this paper that there are some vacancies for one and two year terms also and that anyone interested is asked to call his office.

A list of those whose three year terms expire this year and another list of the number of these who have returned the form letter signifying their intention of running again follows:

Pre. No.	Terms Ex.	Not heard

\$15,000 STORM COST SEEN

Heavy Wet Snow Snarls Rush Hour Traffic Here

Arlington's first snow storm of the year is expected to cost the community in excess of \$15,000 according to Town Manager Edward C. Monahan. The driving "Nor'easter" which dumped from six to eight inches of wet-heavy snow on the community between periods of rain and sleet was still being plowed late yesterday.

Monahan stated that plowing would continue until 5 p.m. Wednesday and that snow loaders would begin the task of clearing the banks of snow from Massachusetts avenue and in the vicinity of churches, etc. at 8 a.m. Thursday morning.

The storm which began shortly before 2 p.m. yesterday afternoon consisted of a combination of rain and snow during most of the afternoon hours. Some eight sanders were pressed into operation during the late afternoon in an effort to cope with the storm.

Monahan stated that snow plows were readied at 6 p.m. and that Town owned equipment went into operation at 7 p.m. Tuesday plowing the Town's streets. In excess of 40 pieces of equipment worked through the night battling the snow fall.

Contractor's plows were pressed into operation at midnight.

"Unfortunately," the Manager stated, "the hard packed snow

which usually can be plowed off streets in three or four days was softened up during the day Wednesday and immediate replowing of the Town's streets became necessary.

Worst Of Its Kind

The storm was made worse according to the Town Manager because of its heavy wet character and the fact that it hit the community at the peak of the traffic rush.

Traffic tieups were reported along Summer street and Mass. avenue especially after vehicle movement in the Belmont Hill area of Route 2 became impossible.

When the Route 2 section became clogged with stalled and skidding cars, drivers outbound from Boston began following a path from the Alewife Brook Pky. westward along Massachusetts avenue and northward along Summer street in an effort to find passable routes to their homes.

Superintendent of Public Works Francis O'Hara called the wet heavy type snowstorm the worst of its kind.

According to Police Chief Albert Ryan only one accident was reported at the local police station during the storm; the one involved property damage to vehicles, but no one was injured.

Hundreds Turn Out For First Skating Locally

Hundreds of youngsters, probably the largest number in the history of the Town, turned out at Arlington's several skating areas over the past weekend, the first "ice weekend" of the year.

According to the Arlington Parks and Recreation, reports that on the supervised skating areas

of the Town last Sunday. The Department stated that over 1200 tots and adults enjoyed day and evening skating at Meadow Brook Park while some 800 turned out at Hills Pond.

Gain Of 29 Per Cent In Business Names Since '47

Paul W. Russo, District Manager of Dun & Bradstreet, Inc. at Boston, announces that his office is mailing 82,883 requests for financial statements to business concerns in his area.

This mailing will include 671 such requests of Arlington business firms which are listed in the Dun & Bradstreet Reference Book. This indicates a growth of 153 business names, a gain of about 29 per cent since 1947 when there were 518 names listed.

As a whole, Middlesex County in 1957 had 19,254 business concerns listed in the Reference Book as compared to only 16,856 in 1947.

Within Town Limits

By Walt Moynihan

The Warrant for the Annual Town Meeting in March was officially opened at the Monday meeting of the Board of Selectmen. It will be open until 5 p.m. January 27.

The Warrant for the Special Town Meeting was open until the Board of Selectmen Meeting at 7:15 p.m. convened. However, this time, the deadline is 5 p.m.

And—the Town Meeting will open on St. Patrick's Day, Monday, March 17, the third Monday of the month. Adjourned sessions will be held on Wednesday and Friday if necessary.

However, we have heard nothing further on the possibility of starting meetings at an earlier hour, possibly 7:30 p.m.

The Town Election will be held March 3; no definite news as yet however, on the special election which is expected to take place soon for the purpose of electing a

representative from the, district encompassing three East Arlington precincts and several Somerville precincts.

The possibility of the Town of Arlington getting assistance from the Federal Government under the Urban Renewal Program for the relocation of Mystic street as discussed by Selectman George Harris Monday night may have some merit, but from this point it seems it would be four or five years before the Town would become eligible for such aid.

From what we can understand to get in on the renewal program a community must go through a long series of more or less screening tests involving a tremendous amount of paper work. This process, we understand, takes three or four years or more to accomplish.

Is it worth the wait to accomplish a \$122,000 job even though the Federal Government might eventually contribute two-thirds of the cost?

Miss Dadekian Weds Mr. Robert Hagopian

Miss Agnes Dadekian, daughter of Mrs. Takue Dadekian of Arlington, and the late John A. Dadekian, became the bride of Robert C. Hagopian, son of Mrs. Della Hagopian of West Newton, and the late Moses Hagopian.

A candlelight ceremony was performed December 8 in the Second Church, West Newton, by the Rev. Dr. James Forrester of Los Angeles, California, assisted by Rev. Dr. Ross Cannon of the Second Church and Rev. Dr. Youhana Muqritchian of Watertown.

Rev. Dr. James Forrester was the bridegroom's former Air Corps Chaplain when they served together in the 20th Air Force on Iwo Jima in the Pacific, during World War II and had flown from Los Angeles, California to perform the ceremony, fulfilling a promise and agreement made by the bridegroom and his Chaplain in 1945 while both were on the Volcanic Island; (that he the Chaplain) would officiate at his buddy's wedding whenever and wherever it would take place. Two of the ushers at the wedding were also members of the 20th Air Force and served with the bridegroom on Iwo Jima. They were Paul Hendry of Natick and Prof. Sidney Lees, formerly of M.I.T.

The bride, escorted by her cousin, Soghomon K. Zartarian, was attired in a gown of eyelet embroidered Japanese silk encrusted with pearls, fashioned with long sleeves, a scalloped neckline and full skirt. She wore a veil of illusion fastened to a wreath of orange blossoms and carried a bouquet of phalaenopsis orchids and stephanotis. The Japanese silk used in the gown had been brought from Japan by the bridegroom, who had been a member of the Occupation Forces stationed there after World War II.

Miss Vivian Dadekian was her sister's maid of honor. Misses Marion Berberian, Marie Bedrosian were bridesmaids, Miss Susan Follett was Junior bridesmaid. Dr. John M. Harmon of Boston University, served as best man. The ushers were Paul Hendry, Prof. Sydney Lees, William Follett, Zaven Der Hagopian, John Putukian, Ted Vartabedian, Chas. Bedrosian and Joseph Tatevosian. For her daughter's wedding Mrs. Takue Dadekian wore a powder blue chiffon over taffeta dress with hatching hat, and Mrs. Hagopian wore a pink colored satin dress with satin hat with variegated Panne velvet flowers and beige accessories.

After a wedding trip to Bermuda.

da the couple will make their home in Watertown.

Mrs. Hagopian attended Arlington schools and the Boston Conservatory of Music. Her husband, a lawyer, is presently serving as Town Treasurer of Watertown. He is an Alumnus of Thayer Academy, Boston University College of Business and Law School. He served for 5 1/2 years in the Air Corps during World War II, in China, Japan and Korea, receiving his commission at the Harvard Business School as a Statistical Officer. During the Occupation of Japan, China and Korea he served as Legal Officer with the 5th Air Force, Far Eastern Air Forces, the Air Transport Command and the XXIV Corps in Korea.

SURVIVAL IS NOT ENOUGH

In marking its 20th anniversary this month the March of Dimes celebrates a beginning rather than an end.

The very name—March of Dimes—has become, in the past two decades, a household word familiar to the humblest home in the smallest village. Everyone knows that it stands for a service grown indispensable to the American public; that it is a savior of lives and restorer of shattered bodies, a bulwark of help and knowledge in time of crisis.

It was the March of Dimes that gave us the Salk vaccine, a titanic milestone in the history of medical science. It was the March of Dimes that instigated the massive vaccination program of the past two years which has lifted the threat of polio paralysis from millions of lives.

So it is only natural to ask: "Another March of Dimes? Isn't polio finished?"

Answer: "Wrong! Polio is far from finished."

For paralytic polio has left in its wake a heartbreaking toll of human disability. There are 4123 residents of Massachusetts who suffered from its ravages. Some are still entombed in iron lungs; many still imprisoned in wheel chairs. Still more face a lifetime doomed to futility.

Can Walk Again
The tragedy of this picture is that many of those still disabled need not live a useless life. Many can be released from the hospitals, freed from the iron lungs, lifted from the wheel chairs. Many can be taught to walk again, to use their arms and hands, to rejoin their families, to recover their capabilities for gainful occupation.

That is what the March of Dimes still has to do. This is the meaning of the 1958 theme "Survival Is Not Enough." Can the March of Dimes perform the new, the bigger, more humanitarian job that still remains unfinished? It is up to you to give the answer with your contribution.

Polio finished? Not till the last victim has been given the ultimate benefits of human ingenuity, the richest fruit of scientific knowledge. Not till tens of thousands of young Americans are given their chance to become once again whole human beings, realizing the full potential that remains within them.

This is the final meaning of Survival Is Not Enough. This is the kind of human sympathy, human fellowship, human care you give when you contribute to the 1958 March of Dimes.

Babson Discusses

WHAT IS STRENGTH

Exclusive NEWS Feature

Roger W. Babson

I shall begin the New Year by discussing something far more important than stocks, bonds, real estate, or mortgages. My text will be the slogan which President Eisenhower brought back from Paris, namely,

STRENGTH WITH PEACE

What is strength? We all know that it consists of something far more than and very different from guns, navies, airplanes, or missiles. Yet, these are the things that we read about chiefly in the newspapers and magazines. This is the "strength" which physicists, engineers, and metallurgists are called to Washington to discuss.

This situation must be changed. Yet, my able friend President Killian of my Alma Mater—the Massachusetts Institute of Technology—has been brought to Washington amid much applause to aid in producing such material strength, not the real strength. This whole trend seems cockeyed to me. Neither America nor Russia will win with this kind of strength. I am very serious about this.

REAL STRENGTH COMES FROM WHAT?

Real strength comes from Courage, Faith, Hardiness, and Rejoicing in Sacrifice. Have we got this strength? Are any civil men being called to Washington to instill this strength in our people? Our unbalanced setup is foolish and dangerous. More scientists will not save us. Our missiles, costing millions of dollars each, may be no more effective than the Great Wall of China or the Maginot Line of France.

Instead of training our youth for Courage, the training of our homes, schools, and even churches is for softness. Our manufacturers and merchants advertise "easy living"; our schools provide "plush" accommodations; our automobiles must have power steering, automatic brakes, and push-button windows. We are the world's worst example of "training for softness" rather than for strength. (Exceptions are our marines and certain others of our armed services, but these fine men make up only about one per cent of our population. Furthermore, these men know nothing of hardship until they enter the service after their habits have been formed.)

SOME EXAMPLES OF OUR FOOLISHNESS

In recent issues of a great magazine I find these significant advertisements: A "baby nipple which will keep the baby from dirtying its bib or dress." My comment is that when I spilled my food, my hands got a good slap! Another advertisement treated of food which is so ground and mixed that the child does not need to chew! Over 350,000 copies of juvenile books were published in 1957, breaking \$80,000,000. About one in every three books now published are to amuse children and take them away from TV.

We send our children to school in busses and keep them awake with gymnastics. Children are practically born in automobiles; walking is becoming a lost art. As a result, the retail trade of our cities may be ruined by the parking problem. Finally, youth is no longer getting its social life in such outdoor games as were formerly common, but rather in cocktail parties that leave them a "hang-over" which is undermining health, character, and industry. Accompanying this curse, labor leaders state that their motto for 1958 is "Less work, higher wages, and more comforts."

LET US STUDY HISTORY

All the progress this nation has ever made has been through work, struggle, and sacrifice. Muscles became strong through exercise; learning came by use of midnight oil; morals developed through religion and self-control. Growing strong permitted no furlough from struggle and sacrifice. It was not money or ease which made America. Our great growth came from strength of muscle, mind, and spirit. Softness and luxury are our greatest enemies today.

Why is this not being recognized in Washington? It is true that our President is setting a good example by attending church on Sundays. It is true that the clergy are publishing optimistic statistics and creeds. But what is being DONE by government, schools, or churches to make people tougher, harder, more industrious and anxious to sacrifice? The best in each of us thrives on difficulties. These can be overcome only by courage and sacrifice. It may be too bad that this is so, but it is true. Let us not learn it too late!

LESS BUILDING PERMITS

A total of 342 building permits had been issued in the Town of Arlington to and including November 15, 1957; this marks a drop from the 387 issued through the same period a year ago.

Total estimated cost involved in the 1957 work was \$2,337,721, slightly higher than the \$2,253,956 of 1956.

The largest number of permits issued was for work on one-family dwellings, 134 permits; this figure is 19 less than the 1956 figure of 153.

Comparison of the more numerous issued permits in 1956 and 1957 follows:

Type of Permit	1957	1956
One family dwelling	134	153
Additions-alterations	111	110
Signs	22	27
Reroofing of dwellings	26	22
Demolish buildings	11	24
Garages	10	10

The largest estimated cost was for construction of one family dwellings, \$1,440,500; this figure was down from the \$1,808,000 of the previous year.

The next largest figure was \$496,029 for additions and alterations; this figure up \$276,425 for 1956.

Other figures over the \$100,000 mark for this year included one of just 100,000 for an 11 family dwelling.

From Beacon Hill

BY JAMES G. COLBERT

Former Boston Post Political Editor

Beacon Hill observers, who are accustomed to fitting the pieces of political puzzles together, have come up with the conclusion that Governor Foster Furcolo gave his assent to the action of a group of Democratic House members who urged him not to sponsor a sales tax bill again in 1958.

The State House onlookers, to whom strange and involved maneuvers are an old story, are convinced that if the Governor didn't actually encourage the move by Democratic legislators, he certainly did not discourage it or make any attempt to stop it.

What does baffle the pundits at the State House is the strategy behind the anti-sales tax move.

These are the facts which the political experts find a bit bewildering:

A large group of Democratic House members got together recently and unanimously adopted a resolution requesting Governor Furcolo not to seek a sales tax during this next legislative session.

In the contingent and apparently its leader was John F. Thompson of Ludlow who has succeeded Michael F. Skerry as Speaker of the House of Representatives.

Thompson is a close personal and political friend of Governor Furcolo. The Governor appointed Skerry as clerk of the Malden district court, not as a reward for Skerry but to clear the way for the elevation of Thompson to the Speakership.

Led Fight

It was Thompson who led the fight for the sales tax on the floor of the House during the last legislative session, and he made so strong a fight for it that he had to achieve a fairly high degree of political inconsistency in order to go on record as requesting the Governor not to advocate a sales tax again this year.

Aside from all that, Thompson is so devoted a supporter of Furcolo that he would not be a party to any action which would cause even the slightest embarrassment for the Governor.

You may be certain that Thompson consulted with the head of his party before he allowed the Democratic House members to go ahead with the adoption of their resolution.

And the fact that Thompson allowed his name to be identified with the appeal to the Governor to abandon the fight for a sales tax was a clear tipoff that the action had Mr. Furcolo's tacit consent and approval.

Had Governor Furcolo been even mildly opposed to the idea, Thompson would have had nothing to do with the movement and would have dissuaded other Furcolo supporters in the House to stand apart from it.

While it seems very plain that the Governor was quite willing to have the Democratic House members go on record as opposing a sales tax, it is not so easy to find the explanation for that attitude.

Was it because he does not want to make another sales tax fight in an election year and that the stand of the House Democrats would give him a reason for dropping it?

Or could it be that he does intend to wage another sales tax battle and is not opposed to letting it be known that he has the courage to go contrary to the majority sentiment in his own party?

Risky to Forecast

It's not easy to provide the answer to those questions, but the first supposition is more logical than the second because the Democratic legislators, having gone on record as urging the Governor not to sponsor a sales tax, would find it a little more difficult to vote for such a tax if he disregards their plea.

Events during the past 12 months have shown that it is rather risky to attempt to forecast what Governor Furcolo will or will not do. He has done the unexpected almost as often as the expected.

Observers at the State House would not be surprised if the Governor were to back away from the sales tax issue, as he looks ahead to the campaign he will wage for reelection; neither, however, would they swoon with astonishment if he were to come out flatly for a sales tax in his budget message, two weeks hence.

And the action of the Democratic House members, some of whom voted for a sales tax in 1957, in urging the Governor not to advance the proposal again in 1958, is the subject of very lively political conjecture.

Governor Furcolo's supporters anticipate that he will have more success in getting his program through the Legislature in 1958 than he did in 1957.

That probably will be true as far as the Democratic-controlled House of Representatives is concerned. It is almost certain that the Governor will have a markedly improved relationship with the Democratic leadership in that body.

During the last legislative session Governor Furcolo worked principally through Representative Thompson, who was then the Democratic floor leader, and often bypassed Speaker Skerry. It was obvious on numerous occasions that a definite coolness existed between Furcolo and Skerry.

Own Man As Speaker

In the legislative session now starting the Governor will have his own man in the Speakership. That will be a tremendous advantage. It should assure a much smoother road in the House for Governor Furcolo's pet ideas.

But the Republican-dominated State Senate may prove to be the political graveyard for many more

Pucksters Beat Rindge, Move Up In Standings

Arlington high school's hockey team fought its way back into a contending position for the GBI crown with a convincing 4-0 verdict over Rindge Tech at the Boston Arena, Saturday.

Harry Howell and John Allen split the four markers for the locals.

The win moved Arlington into a three way tie for fourth place in the tight race. Belmont beat Stoneham 3-1 to create the tie between the three teams.

Cambridge Latin, the dark horse of the League, moved into a second place deadlock with Newton by wallopping Medford 6-0.

Meanwhile, champion Melrose took over undisputed possession of first place by handing Newton its initial loss of the season 3-1.

Arlington had an easy time with the Rindge club which at times this season has shown signs of improvement over performances of recent years.

Allen moved the locals ahead 1-0 at the 1:51 mark of the first

period with Aiken picking up the first of three assists which he registered during the contest.

Howell tallied unassisted at 6:05 of the opening stanza and they went into the second period sitting on a 2-0 edge.

Allen made the score read 3-0 when he scored at 1:45 of the second period with Aiken and Howell drawing assists. Howell completed the scoring at 3:33 of the middle stanza with Aiken again garnering assist.

Miss Clark of Ceylon - Guest Speaker - January 12—A woman who spent 40 years working with the Tamil people of Ceylon will speak at our Missionary Emphasis Sunday at 11 a.m. Miss Lucy Clark worked out of Uduvil School, the oldest boarding school for girls in the Orient. She was principal of the Union Traying School which sent out keen and enthusiastic young women to teach in schools throughout Ceylon. Miss Clark, a graduate of Buffalo Normal School, Kennedy School of Missions in Hartford, and Columbia University, served in many capacities in the course of her career there. She taught everything from hygiene to music, art and English. She led Brownies and "Elephant Clubs," directed choirs and dramatic programs. "God's dividends

are remarkable" she says. "But the greatest dividend of all is to see young people grow up into fine dedicated Christians." We expect to have Miss Clark available to talk to the children and young people at the 9:30 session of the Church School.
